

Please read all instructions carefully to ensure accurate sizing.

- BEFORE YOU PRINT, please make sure that print scaling is set to "None" in your print dialog box.
- Use a ruler to measure the guide to the right, which should measure 2 inches.
- If the guide is not 2 inches, please make sure you are printing at full size, and then reprint this page.

OPTION A - Measure one of your current rings

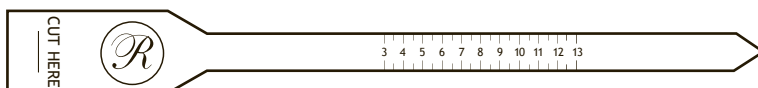

- Select a ring that properly fits the intended finger.
- Place the ring over the circles below and match the **INSIDE** of the ring to determine the ring size.
- If the ring size is between two sizes, use the larger size.

OPTION B - Measure your finger with the Ring Sizer below

- Detach the Ring Sizer from this sheet, then carefully cut along the border of the ring sizer.
- Wrap the sizer around the intended finger with the numbers facing out.
- Carefully slide the pointed end of the ring sizer through the slit.
- Move the sizer to the largest part of the finger and pull the ring sizer **SNUG** to produce an accurate size.
- The number that lines up at the slit represents the ring size for that finger.

Helpful Hints:

- Measure your fingers when they are warm: fingers are at their smallest when cold.
- Measure your finger at the end of the day, when it is at its largest.
