

With a vision inspired by a passion for art and innovation, Barry Verragio has dedicated himself to the Verragio Collection, a distinctively different line of diamond bridal jewelry crafted in platinum with the utmost attention to detail. From time-honored pieces to cutting edge designs, Verragio sets the standard for quality and luxury by combining tradition and innovation with breathtaking clarity.

“When you own a Verragio design, you own a symbol of a timeless and radiant love,” says Barry. “Every piece is as unique as the person who wears it.”

After years of research and trial, Barry Verragio invented the perfect setting for diamonds in VERRAGIO rings, the LUMINO SETTING - ensuring every diamond in a VERRAGIO ring will have a lifetime of beauty.

The LUMINO SETTING unleashes the brilliance, fire and sparkle of a diamond by opening up every facet to light. Both the VERRAGIO center and side diamond settings bring in light from every angle, stimulating the diamond to shine with magnificent brilliance, intense fire and superior sparkle.

VERRAGIO DIAMOND

BELLEZZA

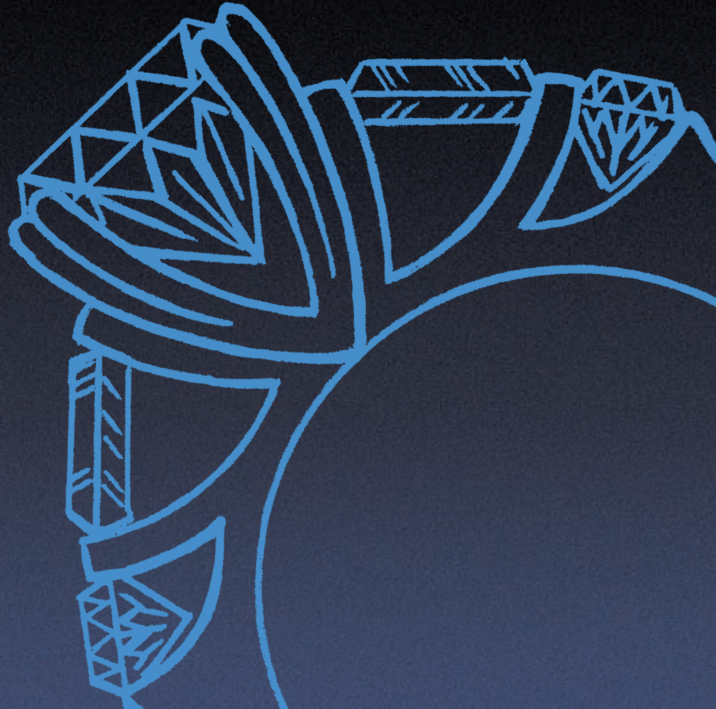

EURO

The beauty of LUMINO SETTING is that it provides minimal coverage while offering maximum safety and protection.

No other technique enhances the brilliance of each diamond as well as the suspension of LUMINO SETTING, and it will enhance any shape diamond. It can also be combined with prong-settings.

All diamonds shown here - both the center and side stones - are secured between platinum bars.

VERRAGIO

The classic VERRAGIO collection offers a wide range of timeless, elegant styles. Our LUMINO SETTING maximizes the beauty of your diamond.
